Summary

Aspiring, passionate, and result-driven full-stack web developer, proficient and specialized in front-end and back-end development. Experienced with all stages of development. Detail-oriented, curious, and strongly interested in problem solving and creative thinking. Enthusiastic, highly motivated, and well-versed in numerous technical skills including HTML, CSS, JavaScript, and React.js.

Projects

Video Chat App

This is my solo project, where users can do video calls by sharing their codes and have fun with each other and this app also ask you to give permission for microphone and video.

Features:

- Users can do video calls by sharing their codes.

Tech Stack: React.js | Material UI | WebRTC | Node.js | Socket.io | Express.js

Areas of responsibility:

- Developed the entire video chat app.

Github Link for frontend: https://github.com/AbhishekKasera7696/video_chat_app

Github Link for backend: https://github.com/AbhishekKasera7696/videoApp

Fitmeals.co.in clone

Fitmeals.co.in is an online food delivering website, which deals with wholesome & nourishing foods that make people feel the best version of themself.

Features:

- Ordering foods from Fitmeals.co.in
- Cancel ordered foods from Fitmeals.co.in

Tech Stack: HTML | CSS | JavaScript

Areas of responsibility:

- Developed the entire homepage of the Fitmeals.co.in.

Github Link: https://github.com/AbhishekKasera7696/FitMeal

A collaborative project, built in 5 days by a team of 4 developers.

Google Search Clone

This is my solo project where users can search whatever they want and can get their desirable result like google.

Tech Stack: React.js | Context API | Material UI | React Router | Google Search API

Area of responsibility:

- Built the entire google search app

Github Link: https://github.com/AbhishekKasera7696/MyGoogleSearchEngineClone
